Dear Sir.

On March 15, 2022, on behalf of LISAC, I delivered a personal letter to you as CARP Chief Policy Officer. A copy of this letter can be seen on our website www.lisac.ca.

You can often be heard on FM 96.3 and other radio stations espousing many “selected” benefits for Canadian seniors and so we have inquired as to why the benefits that our organization advocates for Canadian seniors are never mentioned.

After all is that not what CARP professes to do? Advocate for seniors in matters that are important to them? And yet, these particular benefits are being egregiously ignored.

Why have you chosen to ignore them, and our query, without the courtesy of a response to our offer as outlined within the March 15th letter?

The CARP silence speaks volumes as to your “selective” advocacy and Canadian seniors deserve to be made aware of the limitation of your support and services.

Once again, we would like to hear from you.
