**RE: Investigative File Number CAS-03015**

Dear Sir,

I acknowledge receipt of your letter under date May 25<sup>th</sup>/2022 advising that you “cease investigation at this time”.

Notwithstanding that you state a “response is not required”, I feel compelled to respond to your comments as contained within said letter, I shall however keep my response to a minimum.

“My lack of co-operation was a direct result of your refusal to identify my accuser, as is an accused party’s constitutional right.

My refusal to answer certain questions is in order with the guidelines as set out within “A GUIDE to the *Lobbyists Act*”, July 2016.

Feel free to detail “the discrepancies” in my testimony.

“Failure to recall” events long past is neither a chargeable offence or unusual, only a self-serving statement for your purpose.

I resent your nexus to First Financial Group and suggest that how it conducts itself is of no business of yours absent unlawful activity as may be prescribed.

Finally, as to the “inordinate and inexcusable amount of time and resources expended.  
I FULLY AGREE!

That an arm of our Provincial Government would permit itself to be weaponized by, in this case, the life insurance industry, instead of advocating for the citizens is not only an inexcusable waste of time, it is an egregious act. I find no integrity or anything honourable in that!

A response to this letter is not required.
